

Display Refrigerator 110lt

High Aesthetic Design | Energy Class B

A high-aesthetic display refrigerator featuring a **frame-less full glass door**, offering a modern and elegant appearance ideal for professional environments. Designed at the perfect height for installation under a worktop counter, maximizing space without compromising performance.

Equipped with a **mechanical thermostat, static cooling with fan assistance** for improved air circulation and more uniform temperature distribution, and **1 internal LED light** to effectively highlight products.

The **insulated glass panels** contribute to lower energy consumption and help maintain a stable internal climate.

This display refrigerator is ideal for **impulse sales**, as it showcases products in the most attractive way, increasing visibility and encouraging additional purchases.

Widely used in retail stores, supermarkets, cafés, restaurants, pizzerias, gas stations, and more. It is especially suitable for **self-service environments**, providing an excellent opportunity for strategic placement to create focus points and boost extra sales.
